| ZIP System® Tape Specifications* | |
|---|-------------|
| Nominal Width | Roll Length |
| 3.75 - inches | 90 - feet |
| 6 - inches | 75 - feet |

*Although all projects are unique, experience has shown that 1-roll of tape is needed for approximately 7-sheets of ZIP system sheathing. This should only be considered a general “rule of thumb” when ordering materials with the understanding that some jobs may require more or less depending on specific project.
