TRADITIONAL OSB AND PLYWOOD SIMPLY CAN’T COMPARE TO ADVANTECH SHEATHING

There’s plywood, there’s OSB, then there’s AdvanTech® sheathing. It is Structural 1 rated to provide excellent shear resistance and added strength to your walls and roofs. What’s inside AdvanTech sheathing panels makes all the difference: advanced resin technology resists the damaging effects of weather during construction and over time. Protect your build with the lasting durability of AdvanTech sheathing.

DESIGNED TO A HIGHER STANDARD

When soaked in 1 inch of red water, the water line on the AdvanTech® panel sample barely moves, while the water line on the exposed surface layer of the plywood panel sample moves up significantly. Water absorption can lead to swelling, cupping, delamination and other moisture-related damage.

3-HOUR WICKING DEMONSTRATION

When soaked in 1 inch of red water, the water line on the AdvanTech® panel sample barely moves, while the water line on the exposed surface layer of the plywood panel sample moves up significantly. Water absorption can lead to swelling, cupping, delamination and other moisture-related damage.

500 DAY WEATHER GUARANTEE

AdvanTech® sheathing is backed by a 500-day weather guarantee. With a guarantee like this, your moisture-related jobsite headaches are long gone.
