SINGLE PIECE INSTALLATION STRETCHES, CURVES, STICKS AND SEALS.

ZIP System™ stretch tape easily stretches to fit sills, curves and corners with a single piece without having to piece tape segments together. Made of a high-performance composite acrylic, the tape conforms to challenging applications and locks out moisture even over mismatched surfaces.

ZIP System™
STRETCH TAPE

WATER RESISTIVE BARRIER when used with ZIP System® sheathing
Works on a VARIETY OF SURFACES
REPOSITIONABLE material
Cold temperature application 0°F – 120°F
ADVANCED ACRYLIC ADHESION delivers superior bonding
180-DAY EXPOSURE guarantee
SPEED THROUGH APPLICATIONS WITH TAPE THAT STRETCHES.

ZIP System™ stretch tape is fast and effective. Nothing seals around curves and corners better. So you can zip through tricky installations with ease.

STRETCHES TO FIT
Easily stretches to conform to corners and curves.

EXCELLENT MOISTURE BARRIER
Provides a strong, tight bond for an effective ZIP IT TIGHT™ seal, even around fasteners.

LABOR SAVING
Eliminates the need to piece tape segments together in challenging applications.

REPOSITIONABLE
Can be pulled up and reapplied for hassle-free installation.

VERSATILE
Ideal for your toughest applications including curved windows and wall penetrations.

ZIP SYSTEM™ STRETCH TAPE MAKES QUICK WORK OF WINDOW INSTALLATIONS.
Best practices call for a 2" overhang onto sheathing, a 6" minimum up each jamb, and shims at each corner prior to placing windows. To estimate how much tape you’ll need for each project, consider this: A typical roll is 75 feet long and it takes about 4 feet of the ZIP System stretch tape to cover a typical 3-feet-wide window, based on installation instructions. So you’ll get roughly 18 window sills completed with one 6" x 75' roll of ZIP System stretch tape.
