

# BUILD EASIER.

## What Is ZIP System® Roof & Wall?

ZIP System structural roof and wall panels with built-in protective barriers and the specially designed ZIP System™ tape let you say good-bye to housewrap and felt forever. Simply install the panels, tape the seams and you're done!

## The ZIP System Includes:

### ZIP System panels with built-in barriers

- ZIP System® roof panels with built-in **Precipitek** moisture barrier
- ZIP System® wall panels with built-in **STORMEX** water-resistive barrier

### ZIP System™ fastening & tape guides

- Allows faster, easier, more accurate installation
- Fastening guide for horizontal and vertical wall installation

### ZIP System tape

- Provides moisture resistance for seams, valleys and ridges
- ZIP System tape is code recognized as window and door flashing tape when used with ZIP System wall (ESR-2227)

## What Makes ZIP System Roof & Wall Advanced?

### Installs faster and easier

- Installs up to 40% faster than traditional housewraps and felt<sup>1</sup>

### Eliminates rework

- Protective barriers are built into the panels, eliminating any rips or tears like those from traditional felt or housewrap
- ZIP System tape will not blow off or rip underfoot

### Differentiates projects

- Job sites stand out and have a cleaner custom appearance

### Peace of mind

- Limited 15-year system and 30-year panel warranties<sup>2</sup>

1. Based on time studies conducted by an independent third party and 2005 ZIP System builder survey.  
 2. Limitations and restrictions apply – see zipsystem.com for details.
