Polyiso Foam Thickness	1/2-inch	1-inch	1.5-inch	2-inch
Apx. Weight per Panel	57 lbs.	59 lbs.	62 lbs.	64 lbs.
Apx. Weight per Unit	1,824 lbs.	1,829 lbs.	1,426 lbs.	1,152 lbs.
Available Panel Dimensions (feet)*	4 x 8	4 x 8	4 x 8	4 x 8
Panels per Unit	32	31	23	18
Units per Truck	24	23	24	24
Maximum Unit Stack Height	3	3	3	3

ZIP System[®] Tape Specifications^{**}

Nominal Width ^{***}	Roll Length
3.75 - inches	90-feet
6 - inches	75-feet

* Foam insulation is oversized on one 4-ft and one 8-ft. edge relative to the ZIP Sheathing to accommodate proper gapping of panels. Panels should be installed with foam edges touching. Please coordinate panel field placement and orientation in order to take advantage of this gapping feature.

** Although all projects are unique, experience has shown that 1-roll of tape is needed for approximately 7-sheets of ZIP system sheathing. This should only be considered a general “rule of thumb” when ordering materials with the understanding that some jobs may require more or less depending on specific project.

*** 3.75-inch ZIP System Tape is manufactured without a release liner. 6-inch ZIP System tape is manufactured with a release liner.
