

HUBER RECOGNIZED AS A US BEST MANAGED COMPANY FOR THIRD CONSECUTIVE YEAR

CHARLOTTE, N.C. (May 12, 2022) – Leading specialty building products manufacturer Huber Engineered Woods LLC, a subsidiary of J.M. Huber Corporation (Huber), announced today that Huber has been selected as a 2022 US Best Managed Company. Sponsored by Deloitte Private and The Wall Street Journal, the program recognizes outstanding U.S. private companies and the achievements of their management teams. This is the third year in a row that the company has earned the distinction.

The 2022 designees are U.S. private companies that have demonstrated excellence in strategic planning and execution, a commitment to their people and fostering a dynamic, resilient culture, as well as strong financials. This year’s designees continued to propel their businesses forward by prioritizing purpose, investing in their workforces, and demonstrating their commitment to diversity, equity and inclusion.

“This achievement is a testament to the commitment employees at all levels at each business have to the [Huber principles](#),” says Huber Engineered Woods President Brian Carlson. “At Huber Engineered Woods, we celebrate this recognition reflective of our employees’ daily efforts to practice our corporate principles of Respect for People, Environmental Health & Safety Sustainability, Excellence and Ethical Behavior.”

Applicants are evaluated and selected by a panel of external judges focused on assessing hallmarks of excellence in four key areas: Strategy, ability to execute, corporate culture and governance/financial performance. They join a global ecosystem of honorees from more than 40 countries recognized by the Best Managed Companies program.

About the Best Managed Companies Program

The Best Managed Companies program is a mark of excellence for private companies. U.S. designees have revenues of at least \$250 million. Hundreds of private companies around the world have competed for this designation in their respective countries through a rigorous and independent process that evaluates four key criteria in their management skills and practices — strategy, execution, culture and governance/financials.
