

September 2020

To Whom It May Concern:

This letter is to confirm that it is acceptable to install a **DECRA Roof Systems** stone coated metal roof over **Huber Engineered Woods, LLC Zip System[®] Roof Sheathing**, provided the following requirements are met:

1. Minimum deck requirement is 7/16" minimum thickness DOC PS2 compliant oriented strand board (OSB);
2. The **Huber Zip System** is applied in strict accordance with the specifications and guidelines of Huber Engineered Woods LLC (Reference Huber ICC-ES Evaluation Report: **ESR-1473**);
3. That the DECRA metal roof system is installed per our **DECRA Installation Guide** written for each roof panel style produced (includes both direct-to-deck and on-battens DECRA roof system styles); and,
4. That all local building code requirements are met.

DECRA Roof Systems, Inc. Lifetime Limited Warranty is valid within the terms and conditions stated in the written warranty when the Huber Zip System is used. DECRA's warranty does not cover the Huber Zip system workmanship or application, nor is DECRA responsible for the performance of their product.

Sincerely,

Mark Gallant
DECRA Technical Services Director
