

# LUXURY YOU CAN SEE IS PRETTY. LUXURY YOU CAN'T SEE IS QUALITY.

Quality flooring starts with something you'll never see: your home's subfloors. A high-quality subfloor provides strength, stiffness and stability and can help prevent bouncing, squeaking and warping. AdvanTech® subflooring stops squeaks before they start with superior strength and stiffness that gives your finished floors a smooth, flat surface with a luxurious, solid feel all backed by a limited lifetime warranty.<sup>1</sup> That's why builders who know that the test of true quality is in the materials you don't see choose AdvanTech subflooring.

## QUIET FLOORS

AdvanTech flooring is designed to stay stiffer and stronger than other subfloors. This helps eliminate floor bounce, squeaks, shaking furniture and rattling china cabinets. Whether your floors are hardwood, tile, carpet or marble, AdvanTech subflooring is engineered to provide a solid surface that holds finished floor fasteners in place for a quiet floor.

## DURABLE PERFORMANCE

Unlike other subfloor alternatives, AdvanTech subflooring is engineered with a unique resin technology that delivers advanced moisture resistance to protect your home. With its exceptional performance and durability, Plus, AdvanTech flooring prevents warping in finished floors and can reduce potential weather-related delays and re-work during construction.

## TRUSTED WARRANTY

For more than 20 years, AdvanTech flooring has been trusted for its award-winning quality and long-lasting performance. Backed by a limited lifetime warranty<sup>1</sup> that's transferable to future homeowners, AdvanTech flooring gives you the confidence that your home is built with the subfloor builders trust.
