Dear Mr. Richardson,

We appreciate your interest in working with MAPEI to review your products. We understand your request was for us a list of MAPEI products that can be used with the Exacor MgO subflooring and underlayment panels.

MAPEI has conducted a combination of laboratory and practical application testing with the samples that you provided and are pleased to recommend the following products for use with your Exacor subflooring and underlayment panels:

Primers	Carpet & Resilient Adhesives	Tile Membranes
Primer L (diluted)	Ultrabond ECO 20	Mapeguard UM
Primer T (diluted)	Ultrabond ECO 185	Mapeguard UM 35
SM Primer	Ultrabond ECO 220	Mapelastic AquaDefense
SM Primer Fast	Ultrabond ECO 373	Mapelastic CI
	Ultrabond ECO 360	Mapeguard 2
Substrate Prep Products	Ultrabond ECO 379	Mapesonic 2
Planipatch	Ultrabond ECO 379	Mapesonic RM
Planiprep SC	Ultrabond ECO 420	Mapeguard WP 200
Planiprep PSC		
Novoplan 2 Plus	Wood Flooring Adhesives	Tile Adhesive Mortars
Ultraplan 1 Plus	Ultrabond ECO 975	All MAPEI ANSI A118.1*, A118.4,
Novoplan HFL	Ultrabond ECO 977	A118.11, and A118.15 mortars
Novoplay Easy	Ultrabond ECO 980	
Ultraplan Easy	Ultrabond ECO 983	*For use under tile backer board.
Planitex SLF	Ultrabond ECO 985	

MAPEI recommends that the panels be primed with Primer L (diluted) or Primer T (diluted) prior to application of MAPEI products.

To ensure a successful installation, follow all manufacturers' recommended installation procedures and industry standards. MAPEI technical data sheets, safety data sheets and surface preparation bulletins are available on our website www.mapei.com/US-EN.

Thank you for choosing MAPEI products. Feel free to contact us if you have any questions.

Regards,

Logan Reavis
