Thanks for your cooperation in sending us samples to test our Xcel Flooring Adhesives.

We've reviewed your products and conducted thorough testing with the samples you provided.

Based on our findings, we recommend the following Xcel products for use with your Exacor MgO subflooring and underlayment panels:

- Wood Flooring Adhesive: **Xcel UFA** - Ultimate Flooring Adhesive
- Carpet & Resilient Adhesive: **Xcel MFA** - Multipurpose Flooring Adhesive
- Subfloor and Construction Adhesive: **Xcel HCA** - High-Performance Construction Adhesive
- Multipurpose Vertical Installation Adhesive: **Xcel IGA** - Instant Grab Adhesive

These products can be applied as is, and do not require an additional primer, as long the panels are wiped clean from any contaminants. Always follow the manufacturers recommended installation instructions and industry standards.

Sincerely yours,

A handwritten signature in black ink that reads 'Matthew Cunningham'.
