ENGINEERED FOR SEALING IRREGULAR, CURVED OR HARD TO FLASH AREAS.

ZIP System™ liquid flash is a liquid-applied flashing membrane made of STPE (silyl-terminated-polyether) technology. This high-performance formulation combines the durability of silicones with the toughness of urethanes.

### Zip Tape Roller Takes the Guesswork Out of Seam Sealing

This newest innovation from the ZIP System® sheathing and tape line of products is designed to give you a visual indicator where tape has been rolled. The split-neck roller design allows for easy rolling access in tough-to-reach spots such as inside corners and around windows and doors.

- **“Z” Impression** Leaves “Z” impression where tape has been rolled
- **Long-Reach Handle** Easy rolling for hard-to-reach spots
- **Functional Design** Designed for optimal pressure application
- **Wide Roller Head** Cover more area with each application
