ZIP System® sheathing and tape delivers a sealed roof deck and integrated underlayment built into every panel. Build with confidence knowing your roof has a continuous weather barrier, and capture the financial and scheduling benefits of immediate rough dry-in with ZIP System™ flashing tape.

PROTECTION AGAINST WATER INTRUSION
The combination of a built-in water-resistive barrier and taped panel seams protects against water intrusion and eliminates the need for traditional felt.

STRUCTURAL DURABILITY
High-strength engineered wood panels with Structural 1 rating provide strength and stiffness for a dependable roof deck.1

QUICKER ROUGH DRY-IN
Simply install the panels and tape the seams to achieve a quicker rough dry-in, allowing mechanicals and other trades to start sooner.

ELIMINATE COSTLY RE-WORK
With a built-in water-resistive barrier, there’s no risk of water getting behind your protective outer layer and damaging sheathing panels, which can cause costly delays for re-work.

PEACE OF MIND
The ZIP System® product line is backed with a 180-day exposure guarantee and 30-year limited warranty.2

MOISTURE PROTECTION
1 Integrated water-resistive barrier
2 Continuous rigid air barrier
3 Seam sealing with ZIP System™ flashing tape
4 Roof penetration flashing solutions

BIM materials available at HuberWood.com.

1. Sheathing panels stamped with Structural 1 panel grade are required to meet or exceed racking shear and cross-panel strength and stiffness listed within the Voluntary Product Standard (PS2-10) for Wood-Based Structural-Use Panels.
PROTECTING YOUR HOME WITH A SEALED ROOF DECK

As a builder, roof leaks can be costly to both your bottom line and your reputation. Whether from a high wind event, wind-driven rain or even the common afternoon shower, it doesn’t take much for water intrusion to cause significant damage to a home’s interior. Building a sealed roof deck with ZIP System® sheathing and tape strengthens one of the most vulnerable areas of the home, while giving you an extra level of confidence and peace of mind.

ZIP System® sheathing and tape meets resilient building standards by FORTIFIED3 Home™ and other storm-protection standards. In addition to building to a higher standard, homeowners in a growing number of states are eligible for insurance incentives.

COMPATIBLE WITH ANY ROOF COVERING & UNDERLAYMENT

ZIP System® sheathing and tape provides an excellent roof underlayment to receive many finished roof coverings including metal, tile and asphalt shingles, fiberglass shingles or cedar shingles. The panels lie flat and stay flat, ensuring a finished roof that looks as good as it performs.

---

3. FORTIFIED Home™ is a program of the Insurance Institute for Business & Home Safety (IBHS). Not all homes built using ZIP System® sheathing and ZIP System tape will qualify for a FORTIFIED Home designation. Homes require compliance with all FORTIFIED Home™ technical requirements and inspections. Visit fortifiedhome.org for details.

### Available Edge Profiles

**Tongue & Tongue**

Eliminate the hassle and need for H-clips. 4

**Available Thicknesses:**

- 7/16" Panel
- 1/2" Panel
- 5/8" Panel

**Tongue & Groove**

**Available Thickness:**

- 5/8" Panel

---

4. H-clips are required in roof applications for ZIP System 7/16" panels where roof framing is greater than 16" on center.
OUR SUPPORT GOES BEYOND THE PANEL

INSTALLATION SUPPORT

Installation support is readily available. Choose between installation documents or watch installation videos online.

Visit YouTube.com/ZIPSystemSheathing or ZIPSystem.com

TECHNICAL SUPPORT

If you have a technical question or need additional installation support, we have a team of licensed engineers ready to assist you.

Call 1.800.933.9220 x 2716 or email techquestions@huber.com

SEE WHY BUILDERS TRUST ZIP SYSTEM® ROOF SHEATHING

Visit us on LinkedIn, Instagram and Facebook to see real builders having real experiences with our products.

“...IT’S A MECHANICAL APPROACH WITH THE SAME USE OF MANPOWER IN A MORE EFFICIENT WAY. THAT’S THE TRICK, AND ZIP SYSTEM SHEATHING AND TAPE GIVES US THE ABILITY TO PULL IT OFF.”
– John Hourihan, Vintage Builders

“WE’RE SO CONFIDENT IN THE INTEGRATED WATER AND AIR-RESISTIVE BARRIER THAT WE’RE LAYING IT IN THE RAIN!”
– @atchisonheller
